1. Added "visit" as a weak entity. It is determined by the combination of patient and relative employees including intake clerk, service provider, and nurse. (We noticed the need of the existence of "visit" by referring the team#32)
2. Added two different classifications of patient. One is that the patient is classified into minor and adult. Another is that it is classified into uninsured and insured.
3. Added "department".
4. Added some details like "notes", "cost".
5. Added "initial assessment".
