Changes:
1. Added "Visit" as a strong entity. It has relations with "Treatment", "Initial Assessment", "Treatment nurse", "Assessment nurse", "Intake Clerk" and "Patient". We referred to the diagram by team #13 and made some modifications.
2. Added "Nurse" classification. The Nurse is classified into two different nurses. One is called "Treatment Nurse" who assists the service provider. Another is called "Assessment Nurse" who does the initial assessment.
3. Added "Department" classification.
4. Added some details like "notes" which is generated by service provider and treatment nurse during the assistance.
5. Added "Parent/Guardian" as a strong entity.
6. Classified "Patient" into "Uninsured" and "Insured".
